CHANGING BATTERIES

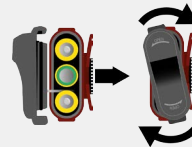

1. Twist the lid to open the battery compartment.

2. Insert 3 x AAA batteries as indicated on the inside of the compartment.

3. Push on the lid firmly and twist to close the battery compartment.

DOs AND DON'Ts

- ✓ Use good quality AAA alkaline batteries.
- Keep your Gamma clean to prevent dirt and dust from entering the electric elements.
- Remove the straps to wash them separately.
- Remove any moisture before storage.
- Store your Gamma in a dry place.
- Have a lot fun while using Gamma!

- ✗ **Do not use rechargeable batteries. Using rechargeable batteries may invalidate your warranty.**
- Do not store Gamma with batteries inside for prolonged periods of time.
- Do not attempt to push the battery lid directly, as it may put undue stress on the lugs.
- Do not shine directly into eyes.
- Do not submerge.

IMPORTANT: The battery life will vary depending upon the the brand and freshness of batteries, recovery time - time the light has been switched off, temperature and the setting used.
