

**INSTRUCTIONS****ADVICE****Inflation**

Open the valve and add a few breaths to add air pressure for the desired level of comfort. Close the valve and your Numo is now ready for action.

Deflation

Open the valve, fold the mat into 3 or 4 and sit on the mat until all the air is squashed out. Roll from one end towards the valve end. Close the valve and pack.

Storage

Make sure your Numo is stored dry, unrolled, with the valve open. If stored rolled up then mildew may form and moisture trapped inside may result in delamination. This is not covered by warranty. If your Numo has noticeable signs of moisture inside it, partially inflate and hang upside down with the valve open.

Cleaning

Keeping your Numo clean will make sure that dirt, damp and other materials do not degrade the mat. To clean, inflate the mat and close the valve. Wash with Nikwax Tech Wash, mild soap or similar cleaning product and rinse. Leave unrolled to dry, and don't forget to open the valve.

Repairing punctures

Numo comes supplied with repair patches inside its stuffsack. Before applying the patch make sure the surface is clean and dry. Cut the patch to a suitable size and apply the adhesive to both the patch and mat. Allow to cure until the glue becomes tacky and then apply the patch. Keep pressure on the patch until the glue has dried.

Always check for puncture hazards under mat area when setting camp (sharp rocks, sticks, thorns or hedgehogs).

Use a ground cloth beneath mat if not sleeping in a tent.

It's not a flotation device, even on swelteringly hot days at the beach.

Do not pressurize or inflate with a pump.

Do not leave in direct sunlight for prolonged periods. If leaving in a hot tent during the day deflate the mat as the pressure inside the mat will increase and may put undue stress on the seams.

3 Year Alpinelite Guarantee

Your mat is warranted for 3 years against defects in materials or workmanship.

If the mat is found defective under the warranty we will repair or replace it at our discretion free of charge. Mats may be replaced with a fully guaranteed but cosmetically irregular replacement.

Normal wear, puncture, misuse, alteration or abuse is not covered.
